## 4400 Tractor

The Ford 4400 tractor delivers ample horsepower for heavy-duty landscaping or mowing with wide flail and rotary mowers. It provides a sturdy power platform for work with 10 or 13-ft Ford backhoes and 3,050-lb Ford loader. A heavy, industrial front axle and support assembly, strong chassis, and sealed, oil-immersed disc brakes make it an excellent logging and pulpwood operations unit.

- **Heavy-duty, Ford** diesel or gasoline engines with tested fuel economy.
- **Exceptional front-to-rear weight distribution** for

superior stability with loader and backhoe, and for heavy drawbar loads. Low center of gravity.

- **Double-reduction final drive.**
- **Easy-acting multiple disc brakes**, oil-immersed for long life.
- **Heavy-duty U-boxed, straight industrial front axle** and support members.
- **Transmissions to match all job needs.**
- **Improved Ford single-lever 3-point hitch** and hydraulic draft control.
